

# SETTING UP THE APPLICATION ENVIRONMENT

## Create an Account in Sendgrid

DATE	28 October 2022
TEAM ID	PNT2022TMID52556
PROJECT NAME	Inventory Management System for Retailers

Create an Account in Sendgrid:

The screenshot shows the Twilio SendGrid dashboard for user 'Shiny Selvaraju'. The left sidebar contains navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, and Settings. The main content area is titled 'Welcome, Shiny!' and includes a blue banner that says 'Send your first emails with Twilio SendGrid'. Below this, the 'Create a sender identity' section is active, showing instructions on how to create a sender identity and two buttons: 'Create a Single Sender' and 'Authenticate a domain instead'. An illustration of two people running is on the right, and a diagram of an email header is shown at the bottom right.

**Welcome, Shiny!**

To get up and running quickly, please follow the steps outlined below.

**Send your first emails with Twilio SendGrid**

**Create a sender identity**

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

[Create a Single Sender](#) [Authenticate a domain instead](#)

Your sender identity is the "from" email address your recipients will see in their inbox. [Learn more](#) about this.
