

## Project Design Phase-I Solution Architecture

Date	19 September 2022
Team ID	PNT2022TMID52556
Project Name	Project - Inventory Management System for Retailers
Maximum Marks	4 Marks

### Solution Architecture:

The System will ask retailers to create their accounts by providing essential details. Retailers can access their accounts by logging into the application.

Once retailers successfully log in to the application they can update their inventory details, also users will be able to add new stock by submitting essential details related to the stock. They can view details of the current inventory. The System will automatically send an email alert to the retailers if there is no stock found in their accounts. So that they can order new stock.
